FOR IMMEDIATE RELEASE 5/20/2024

Sea Turtle Nesting

Sea Turtle Nesting Season takes place annually from May 1st through October 31st. To help make sure they have a successful nesting season, we ask that you please take the following into consideration when visiting our Captiva Beaches:

- Turn off or shield all lights that are visible from the beach. Do not use flashlights or cell phone lights on the beach. If necessary, use amber or red LED bulbs.
- Do not disturb the screens covering nests. They prevent predators from eating the eggs and the hatchlings emerge through the holes without assistance.
- Remove all beach furniture and equipment from the beach at night.
- Dispose of fishing line properly to avoid wildlife entanglement.
- Fill in large holes that can trap hatchlings and nesting sea turtles.
- Do not disturb nesting turtles – please do not get too close, shine lights on, or take flash photos of nesting sea turtles.
- Pick up litter.

If you would like more information about Sea Turtles and what is being done to protect them, please visit our friends at the Sanibel Captiva Conservation Foundation's website here:
